

AirWrap

The latest addition to the Fill-Air® Family

THERE IS NOTHING MORE AGILE THAN AIR

AirWrap, a Fill-Air Extreme® film, bridges the gap between void fill and cushioning applications harnessing the flexibility of air to fit any business.

AIRWRAP ALLOWS YOU TO DELIVER THE RIGHT SOLUTION FOR THE RIGHT APPLICATION

AirWrap is ideal for products that are:

- Durable, requiring less cushioning for protection during the shipping cycle.
- Packaged with other items in the same box needing wrapping with light blocking and bracing.
- Able to be shipped in smaller packages with less void fill, improving dimensional weight outcomes.
- Solutions that require increased fulfillment velocity or cube optimization.

ON-SITE, ON-DEMAND, HIGH PERFORMANCE PROTECTION

This on-demand air pillow is compatible with the Fill-Air Rocket® system and can solve your fulfillment velocity challenges.

REDUCE YOUR CUBE SIZE

AirWrap provides just the right amount of packaging. High performance pillows allow you to reduce package size and weight without sacrificing protection.

NOT JUST FOR VOID FILL

AirWrap is perfect for:

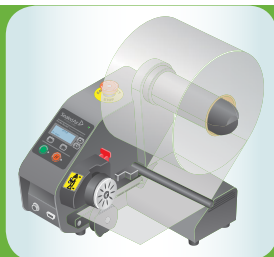

- Product separation
- Blocking and bracing
- Carton lining
- Wrapping
- Product interleaving
- Smaller void filling

NEXT GENERATION FILM FOR SERIOUS PACKAGING OPERATIONS

AirWrap arrives at the right time, embracing ever changing customer needs, particularly in e-Commerce, 3PL and Omni-Channel segments that demand solutions that are more sustainable, cost efficient and easy to use.
